SAVE THE DATE

The conference will feature experts from Australia, Europe, and South America, as well as speakers from the United States. They will share their visions for the teaching of school algebra and geometry. Attendees will be able to meet the speakers at panels, discussion groups, meals, and at the Conference reception.

The following international speakers are confirmed, and will speak on the topics listed below.

**Algebra in Grades K-6**
Romula Campos Lins (Universidade Estadual Paulista, Brazil)
Elizabeth Warren (Australian Catholic University, Australia)

**Algebra using Computer Algebra Systems (CAS)**
Kaye Stacey (University of Melbourne, Australia)
Bernhard Kutzler (Austrian Center for Didactics of Computer Algebra, Austria)

**Three-dimensional Geometry**
Claudi Alsina (Universitat Politècnica de Catalunya, Spain)
Jean-Marie Laborde (Université Joseph Fourier, France)

**Linking Algebra and Geometry**
Keith Jones (University of Southampton, UK)
Colette Laborde (l’Institut Universitaire de Formation des Maîtres, France)

**Conference Schedule:** The Conference will begin on the afternoon of Friday, May 2 and end on Sunday, May 4, 2008. In addition to the international perspectives, speakers from the United States will be leading discussion groups and participating in panels.

**For More Information:** Further details and a registration form will be added to the CSMC web site http://mathcurriculumcenter.org in the near future. Please visit the site for the latest conference news.
